Radhika:

Just wanted to push this up in your box given the timing of this meeting on Wednesday.

Here is the latest I have on content we can refer to at the 9/29 7:45 am CT meeting with memo authors.

Matt/Elizabeth – we will want to at least have this at a point where we can refer to the content during this meeting. But better I think if a final response can be shared at or before this meeting.

Best,
Alan

Thanks so much Elizabeth. I believe Alan and I have our first meeting with this group (some of the same folks as the BH petitioners but generally much broader across Michigan) on this coming Wednesday and we had hoped for this to be signed out before that meeting. That obviously means we don't have much time left unless we push that meeting back (which I think is not a good look given the range of issues).

Radhika – not to push, but any input? I think with Elizabeth's addition we're in pretty good shape for the BH section (attaching a clean copy here).

Best,

M

Matt:

My suggestions for the Benton Harbor paragraph you flagged. Looping in Radhika for her review as well.

Elizabeth and Anita – not that this response is more important in any way than our actual engagement with the Benton Harbor folks, but we need to please get this moving up and out of the agency. Can you please take a look at the Benton Harbor section and give us any changes etc. this week based upon the evolving work?

Thanks,

M

Thanks for pointing that out Alan. I'm also looping Elizabeth on this. In the newest version (attached) I have added another highlighted portion and removed some of the language that isn't action oriented in the Benton Harbor

section. But I also don't know what to do with this overall BH section and its final paragraph in particular until we know what we are doing and where we are going based upon the engagement with leaders yesterday and next week.

Thanks Matt – I wanted to note that some of the other language on Benton Harbor in the draft Administrator's letter was also used in my letter to Rev Pinkney which did not sit well w/ petitioners; and we should be sure we're not repeating points that have already landed w/ a thud. See in particular at p23.

Radhika – one more thing for you. Given today's Benton Harbor call, I wanted to make sure you had eyes on this. We had made adjustments on BH given EGLE's announcement last week, but I have today adjusted this again (highlighted in text) to make a stronger statement directly from the Administrator. Please let us know if you approve and if there is anything else you would like to incorporate into this response. I have also attached the original request to the Administrator.

Best,
Matthew

Approved in concept and directions on next steps below. I think she didn't see the very latest version but use the latest and fill out the cover memo and send to me.

Looks good. And I just looked at the Administrator's first mass email, and he did call out EJ.

Process: Write a short cover memo to include with the draft letter (but first put the letter in Times New Roman 12 Point and accept all changes). The memo should explain what the letter is and ask for his approval for signature.

I've attached a sample memo, but please delete/ignore the irrelevant sections.

Then send the memo and letter to Kathleen by 3pm to get in that night's book.
